MOBILE HEALTH CLINIC PLANNED

Traveling Outfit, Fully Equipped to Visit All Sections of State

SALT LAKE, March 21.—A traveling clinic, fully equipped to carry the people of the state the message of better health will be sent out during the coming month by the Utah Public Health association. The clinic is planned for the purpose of spreading the doctrine of health among the smaller rural sections, where there is a limited nursing or medical service. The primary purpose of the clinic is to afford people an opportunity to learn the facts concerning their physical condition. Preventive phases of diseases, especially tuberculosis, will be emphasized.

EQUIP AUTO TRUCK.
A large automobile truck will be equipped with a commodious body, where full clinical appliances may be set up, which will be in charge of an expert diagnostician and tuberculosis expert, James H. Wallis, executive secretary of the association, is in correspondence with some of the best known tuberculosis doctors of the large eastern clinics and sanitariums, recommended by the National Tuberculosis association, relative to securing the best qualified person to take charge of the health caravan. A trained graduate nurse will also be a member of the staff, and this staff is planning to co-operate with the local physicians and nurses in each community. Lectures and demonstrations will be given in some central locality in each county and consultation and advice given free.

Examinations of school children will be made in each community where there is no public health nurse. The importance of child hygiene as a preventive feature of the tuberculosis campaign makes it imperative that all physical defects and handicaps be remedied in children.

Aside from the clinic an educational exhibit, including motion pictures dealing with health topics, stereoscopic views to illustrate lectures, various charts and posters emphasizing child welfare work and pamphlets and literature on the prevention and cure of tuberculosis will be given. A complete lighting system will be installed in the car so that no phase of the work will be hindered by communities having no electric lighting plant.

Local preparation will be secured through the co-operation of the county newspapers and any organization, committee or individual engaged in health or social work. It is not intended to descend on any community until the field has been prepared and in large number of people as possible encouraged to benefit by the opportunity. Practically a week will be given to each county, the clinic arriving in some central locality after working throughout the section. All cases, suspects and contacts of tuberculosis will be examined and records kept to assist in the general state survey of the disease.

NO TREATMENTS PLANNED.
To the country nurse the coming of the traveling clinic and exhibit will mean a new era in her rural work, for it will mean prompt attention to the many suspected cases that she has been calling on and trying to impress with the importance of an early diagnosis. Few persons have either the means or the opportunity to go to specialists in some far distant city, and it is for this reason that the Utah Public Health association and state board of health is sending the specialists to the people.

The clinic will be for diagnosis only. No drugs or treatment will be prescribed, but instruction will be given to the patient on caring for himself and preventing spread of the infection to others. The child welfare features of the clinic will be carried on by the nurse. She will give practical demonstrations on the care of infants. The entire undertaking is made possible by the money raised through the sale of Christmas seals, and is planned to bring back to each community a actual service the value of their contribution to the Christmas seal sale.

How Pure Food Can Poison You

Waste matter in constipated bowels poisons blood and causes much disease. NR keeps system clean, prevents disease, makes body strong.

N^o 7's Wonders After Dietary Blunders

Let the proper digestion, assimilation and elimination process of the body mechanism be interfered with by the purges, and most of the food may be converted into dangerous, disease-breeding poisons. Poor digestion and assimilation mean poorly nourished body and "poisonous" gases. Constipation means clogged bowels, fermentation, putrefaction and the formation of poisonous gases which are absorbed by the blood, carried through the body, and cause weakness, headache, dizziness, coated tongue, indigestion, liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, sallow complexion, pimples, skin disease, and often times serious disease.

Can you afford to take chances with constipation? Why not begin today and take Nature's Remedy (NR Tablets) each night for a week or so until your stomach, bowels and kidneys are sufficiently strengthened to carry on the process of digestion and elimination unaided. You'll feel

SHOOTSELF TO ESCAPE ARREST

Davis Baugh of Wellsville Commits Suicide After Exchanging Fire

LOGAN, March 21.—As a result of trouble with peace officers, Davis Baugh, of Wellsville, 27, father of three small children, is believed to have fired a fatal shot into his brain. His body was found by his father-in-law, Alex Hill, lying on the floor of an upstairs room in his home early yesterday morning. A wound in his head gave evidence that a bullet had entered one side and come out of the other.

MANY SHOTS FIRED.
It is thought that Baugh shot himself following trouble with the officers Saturday afternoon when he resisted arrest by Sheriff Miles L. Peterson. Many shots were fired in a brawl between Baugh, Sheriff Peterson and deputies.

Saturday, Sheriff Miles Peterson left Logan for Avon and Wellsville with warrants of arrest for David Baugh and others on a charge of issuing fictitious checks. After visiting Avon on official business, Sheriff Peterson went to Wellsville, met Baugh on the street and notified him that he was under arrest and would have to go to Logan with the sheriff to appear before Judge Bullen in the city court. Baugh stated that he was not then ready, but would go to Logan later in the day. The sheriff, together with Marshal Chris Larson of Wellsville, then took two other men to Logan with the intention of returning later in the day for Baugh.

OPENS FIRE.
Sheriff Peterson, Deputy Sheriff Benson and Marshal Larson returned to Wellsville late in the afternoon to bring Baugh to Logan. When they arrived in Wellsville they met him again on the street about a block from his house. Baugh drew a pistol and opened fire on the officers, saying that "they would never take him alive." Bullets flew around the officers, but they took refuge behind trees and returned the fire of the fugitive. Baugh proceeded to his house, firing indiscriminately en route. In the exchange of shots Deputy Sheriff Benson shot Baugh in the leg.

SEEKS REFUGE.
The fugitive took refuge in his house. His father-in-law, Alex Hill, and Bishop Charles Maughn, learning of the trouble, went to the home in an attempt to calm him at 3 o'clock in the evening. Baugh permitted them to enter, but kept them covered while they were in the house. Being unable to persuade him to surrender himself to the officers or give up his guns, the two men left. Officers guarded the house closely, shots being fired into it at intervals. Shortly after Hill and Bishop Maughn left, the officers outside heard two shots fired inside the house. They made no other move, but continued to keep a close vigil over the building during the night.

WIFE LEAVES.
After Baugh had gone to his house, following his first exchange of shots with the officers, his wife, Mrs. Sadie Hill Baugh, observed that he was unusually nervous and wrought up. She immediately took her three small children and went to the home of her mother, Mrs. Alex Hill, about a block away. She remained there all night, not daring to approach the house where she had left her enraged husband.

This morning at dawn, Mr. Hill went to Baugh's house, where officers were still on guard. He opened a window and entered the house. When he got upstairs he discovered the body of his son-in-law lying on the floor. His gun was under his body and it was evident that he had been dead several hours.

THIRTY UTAH GIVEN REPRIEVE

PROVO, March 21.—Vernon Davis, who was caught on February 4 in the act of attempting to negotiate a drink from the evidence safe of the Spanish Fork city hall, was released from the county jail yesterday following the arrival of a reprieve granted by Governor Mabey.

Davis was attempting to open the safe, containing a quantity of contraband whisky, when arrested. A petition for his pardon, signed by many prominent citizens of Spanish Fork, was sent to the governor, with the result that the reprieve was granted until his case can be considered by the state board of pardons at the next regular meeting, Saturday, April 16.

Woman Rescued From Death in Peculiar Mishap

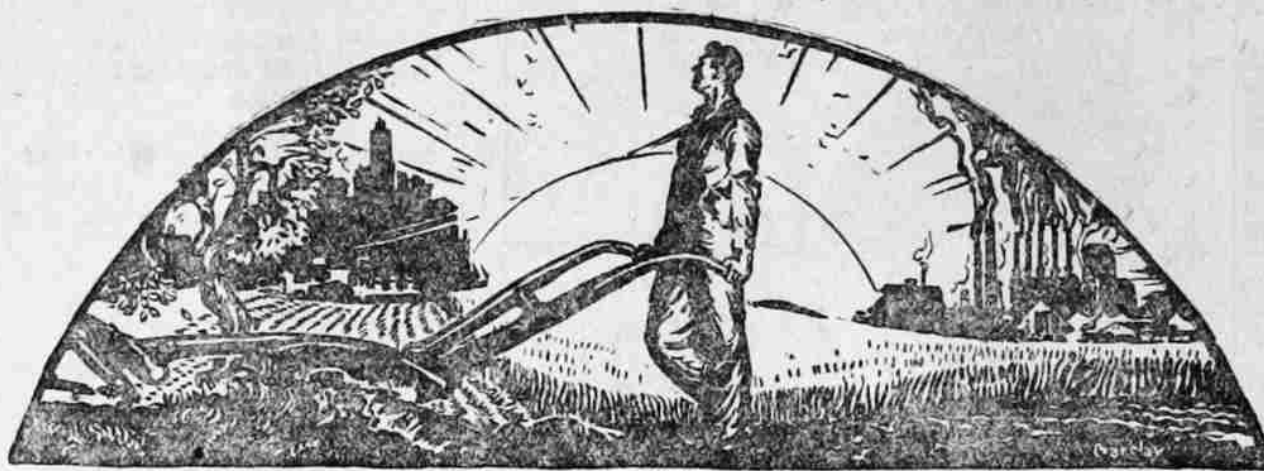

SALT LAKE, March 21.—Chance arrival of Dr. C. A. Nyval on the scene of an automobile accident yesterday, saved the life of Mrs. W. D. Ray, who, when the car in which she and her husband were driving turned over, was pinned beneath the wreck in a manner that threatened death by strangulation.

Mr. and Mrs. W. D. Ray, of 732 Richards street, was driving in Big Cottonwood canyon. The machine turned turtle when the front wheels caught in a rut. Mrs. Ray was caught beneath the car, the windshield resting on her throat. Her husband crawled from under the car but his efforts were not sufficient to move the machine. Mrs. Ray was unconscious when Dr. Nyval arrived on the scene. Combined efforts of the men were sufficient to move the car. Dr. Nyval then administered first aid treatment and removed Mrs. Ray and her husband to the emergency hospital.

DEPORTED WOMAN RETURNS; ARRESTED

POCATELLO, Ida., March 21.—Mrs. Margaret Linard, deported as an undesirable citizen during the war, was rearrested yesterday upon returning to Pocatello. She was immediately taken before U. S. Commissioner Theodore Turner and arraigned on two counts, one of having entered this country after deportation, and the second for re-deportation. She was placed under \$3,000 bonds.

Mrs. Linard was deported to Ireland and her husband to Scotland. Mrs. Linard entered through the Detroit port. She is known in police circles as "Mother Goose."

This is the First Day of Spring

Today, March 21st, is the first day of Spring—the day that everybody has agreed upon as the time when "business will open up." Business is here. It starts from now. It should be greater every day.

Industry is awakening. On all sides you see the evidences of this. In every newspaper you read of resumption of work.

Back to normal! It is a cheering thought. Employer, employee, dealer and customer are glad of it.

Out in the country the crops are being put in as of old. Mother Nature never takes a vacation. She is swinging into her spring work, making the seeds sprout and the crops grow. The food of the world is going to be produced. The foundation of all prosperity exists as it always did.

Business is here. It is ready at your hand. It is not something to be waited for, not something to be wished for. It is.

The first day of spring is a splendid starting point. Winter, with all its handicaps and disappointments, is behind, and can be forgotten. Ahead of us all are days that grow better and better, days when work will

count more and more, when mutual understanding and helpfulness will bring their lasting benefits. The roads are getting better, the shops are showing the new things, people are putting money into circulation. Your dollar, paid out for a necessity, does not stop working. It keeps going on and on—increasing the volume of business.

"Good times" are coming back with the sunshine and the flowers, with the humming of machinery and the song of the whistles. The hour for moping and complaining has gone; the time for hustling and prospering is with us.

In the automotive industry the news is encouraging. Passenger car and truck manufacturers are welcoming the first day of spring with increased activities to satisfy the coming demand.

And here in the Goodrich plant the opening of spring finds us ready to serve our old and new customers through the Goodrich dealers in the efficient manner that has characterized our organization for fifty years.

It is the first day of spring—the dawn of the good business era for us all.

"BLACK AND WHITE" DAY TO BE OBSERVED

LOGAN, March 21.—"Black and White Day" will be celebrated in Richmond, sixteen miles from here, April 30. The day is significant of the Holstein cattle for which Richmond has long been famous, and all the proud owners of this grade of livestock exhibit their animals in competition on the occasion. Already nearly 150 head of dairy cattle have been listed for the show.

32,000 LICENSES ISSUED FOR AUTOS

SALT LAKE, March 21.—At noon Saturday more than 27,000 licenses had been issued by the secretary of state to passenger motor vehicles, and more than 4,000 to trucks. Including dealers' licenses, this means that approximately 32,000 automobiles in the state now carry the 1921 colors.

There are somewhere between 40,000 and 45,000 automobiles in the state, it is estimated, but owners in the outlying counties, where the roads are not yet open to automobile traffic, especially, are rather slow to take out the required license plates.

There has been somewhat more than usual haste this year because the law will soon go into effect which will make it considerably more, as well as require somewhat more delay to obtain an automobile license.

MONEY FOR SEED TO BE LENT FARMERS

BOISE, Ida., March 21.—Announcements whereby drought stricken districts will receive federal assistance to the extent of about \$200,000 are expected to be made following a conference with federal representatives, to be held at Boise, Mont., March 21 to 24. Julius H. Jacobson, of the Idaho crop reporting service, will represent this state at the conference. It is expected that the government will extend financial aid to dry farmers for the purchase of seed.

Nearly 100,000 acres of Idaho land were affected by drought conditions last season, it is estimated.

TOWN SETS TO WORK TO IMPROVE ROAD

LOGAN, March 21.—A general celebration was held Friday evening in Providence at the conclusion of a big program of road improvement, in which every citizen participated.

The ladies of the Mutual Improvement association, of both L. D. S. wards prepared a luncheon for the men, who had worked on the roads of the town, hauling 800 loads of gravel and making other improvements.

Each citizen aided, there being 145 men with teams and 115 additional men on the work. All the work was contributed.

BUSINESS RESENTS FEDERAL MEDDLING

WASHINGTON, March 21.—"More business methods in government and less government management of business" will be the general discussion at the ninth annual meeting of the United States chamber of commerce at Atlantic City, April 27 to 29, the chamber announced Sunday. Industrial and economic questions to be brought up will be approached from their relationship to this subject, it was said.

Discussions will be conducted in group meetings to take up particularly finance, foreign commerce, transportation and communication and development, while other industrial groups will consider questions relating to their fields. A group representing the raw material production interests will consider, it was said, proposed legislation for government "management" of basic industries and the government's relation to natural resources.

A new union station, costing \$60,000,000, is planned for Chicago.

SENATOR OFFERED IDAHO JUDGESHIP

SALMON, Idaho, March 21.—Governor D. W. Davis has telegraphed Senator E. W. Whitcomb of Salmon offering him the appointment as judge of the Sixth judicial district of Idaho, to succeed Judge F. J. Cowan of Blackfoot, whose resignation became effective on March 15.

Senator Whitcomb wired Governor Davis that he would be unable to accept the appointment, as he has already arranged to enter into a partnership with Judge Cowan for the practice of law in Blackfoot.

Senator Whitcomb will shortly remove to Blackfoot to take up his practice. He has been a resident of Salmon for about fifteen years, and has represented Lemhi county as senator in the state legislature for five regular sessions and two special sessions.
